

// Professionally Experienced

Senior Frontend Software Developer (m/f/x)

🚩 Paderborn, Szczecin & Izmir ⌚ Full-time 📅 As of now

You are a team player and able to build bridges between different market requirements as well as customer challenges and our software solutions? You always keep a cool head even with complex architectures and processes and have your own ideas and approaches for finding solutions to various challenges?

Then apply now as a Software Developer and let's shape the future together.

Your tasks at Raynet

- Developing single page web applications using Typescript and Angular as framework
- Design and implement frontend pages with focus on usability using CSS and component libraries
- Technical lead of your coworkers (mentoring, onboarding...)
- Assist with DevOps activities in both AWS and Azure environments
- Work collaboratively with customers and stakeholders to investigate issues, gather requirements, and implement solutions
- Participate in validation, testing, and documentation of product releases
- Resolve production issues to keep critical systems operational
- Work in an agile product development process (Scrum)
